FORMAL INTERPRETATION No. 16-02

Subject: Inspector-Trainee Test Requirements
Reference: UAP, Part VI, Section 4(C)(3)
Effective Date: March 15, 2016

ISSUE

UAP grants inspector-trainees a two-year period in which to pass required tests. However, three out of four trainees never become certified as industrialized buildings inspectors – in some cases without having passed any required tests.

INTERPRETATION

The Commission has determined that inspector-trainees must take at least one required test every six months to continue to perform inspections. Documents showing compliance must be maintained by the inspection agency.
